List of Tables	ix
Foreword	xi
Preface	xiii
1. Introduction <i>Alan B. Cohen</i>	1
2. Critical Questions Regarding Medical Technology and Its Effects <i>Alan B. Cohen</i>	15
PART I: The Development, Diffusion, and Adoption of Medical Technology	
3. Biomedical Innovation and the Development of Medical Technology <i>Alan B. Cohen</i>	45
4. The Diffusion of New Medical Technology <i>Alan B. Cohen</i>	79
5. The Adoption and Use of Medical Technology in Health Care Organizations <i>Alan B. Cohen</i>	105
PART II: Medical Technology Evaluation	
6. The Evaluation of Clinical Safety and Efficacy <i>Ruth S. Hanft, Alan B. Cohen, and Catherine C. White</i>	151
7. Economic Evaluation Methods <i>William E. Encinosa and Alan B. Cohen</i>	178
8. Clinical Decision Analysis <i>William E. Encinosa</i>	200

9.	Medical Technology Evaluation in the United States and Selected Other Countries <i>Alan B. Cohen and Ruth S. Hanft</i>	219
PART III. Policy Issues and Concerns		
10.	Safety and Efficacy Concerns: Medical Technology and Market Entry <i>Alan B. Cohen and Shirley A. Stewart</i>	251
11.	Quality Concerns: Medical Technology Use and Evidence-Based Clinical Practice <i>Alan B. Cohen, Shirley A. Stewart, and Ruth S. Hanft</i>	277
12.	Cost Concerns: Medical Technology and Health Care Payment Policies <i>Alan B. Cohen and Ruth S. Hanft</i>	302
13.	Access and Equity Concerns: Medical Technology and System Capacity Controls <i>Alan B. Cohen and Ruth S. Hanft</i>	329
14.	Social, Ethical, and Legal Concerns: Experimentation, Rationing, and Practice Standards <i>Ruth S. Hanft and Stephanie M. Spornak</i>	350
15.	Evaluation Concerns: Medical Technology Evaluation in the Future <i>Alan B. Cohen and Ruth S. Hanft</i>	364
	Appendix: List of Acronyms	383
	References	387
